Accessibility

Elements Have Discernible Names

These are opportunities to improve the semantics of the controls in your application. This may enhance the experience for users of assistive technology, like a screen reader.

Buttons do not have an accessible name

Color Contrast Is Satisfactory

These are opportunities to improve the legibility of your content.

Background and foreground colors do not have a sufficient contrast ratio.

Page Specifies Valid Language

These are opportunities to improve the interpretation of your content by users in different locales.

<html> element does not have a [lang] attribute

Image elements do not have [alt] attributes

Elements Use Attributes Correctly

These are opportunities to improve the configuration of your HTML elements.
